Memory cards and PC connection

PC connection

Use the supplied USB cable to connect your Entertainment Station to PC. Insert the small end of the USB cable into the unit and the large end into an open USB slot on your computer. After connection the internal memory and any card inserted into the unit will be accessible in Windows by going to the “MY COMPUTER” Window and accessing the “removable disc” icons(s). Under a Mac OS-X system the unit will show up on the Mac desktop.

To disconnect; Use the “Safely Remove Hardware” icon on the task bar window to remove the device. Then disconnect the USB cable.

Use ASSP

1. Click "FileConverter.exe" and then click "Add File", your computer's files and folders will appear, double click the file or photo to add them to your eReader.
2. Hold on "Shift" or "Ctrl", you can download multi files or photos to your eReader. In this way, the photos downloaded will be stored at 800 x 600 pixels to suit your eReader screen and the MP3 files will be transferred into WMA file. When you have finished the operation, please safely remove the USB cable from your PC.

Tip: You also can take the eReader as a regular storage device, select the photos from your computer, and then paste them into internal memory of your eReader. In this way, the photos will be stored without compression. If you want to optimize your internal memory, you can select the photos, then click the "Convert".

Attention: Once you format the internal memory of your eReader the ASSP software will be deleted.

In this situation, you can still use the eReader as a regular storage device, you can copy, paste and delete files after connecting your eReader to the PC. But there will be no ASSP tool to convert files anymore.
